

# CONTOUR

Contour is a leading civil, structural and environmental engineering firm, consulting and project managing across all disciplines. We deliver client focused outcomes at all stages of a project. Our team is dedicated, skilled and knowledgeable, enabling Contour to successfully deliver projects for our clients across Australia, Asia and the South Pacific Islands.

## INDUSTRY EXPERIENCE AND EXPERTISE

Through its office located in Dalby, Contour continues to deliver first class engineering services into the Surat Basin. We are firmly of the view that it is one thing to have the potential expertise to deliver an outcome for a client, but quite separately, it is another to have the expertise and to be delivering the service in the relevant industry sector. For these reasons we have developed a succinct capability statement discussing several of our services that we are currently delivering into the Surat Basin.

In addition, we are third party quality assured and have all insurances in place and up to date. Amongst our dedicated staff we have several RPEQ and CPESC accredited engineers. Our client satisfaction rating is at an all-time high and we pride ourselves on our punctual, professional service.

## OUR CORE SERVICES

- Land Rehabilitation
- Vegetation Clearing
- Bulk Earthworks
- Drainage Works
- Quarry Approvals
- Road Design and Traffic Engineering
- Accommodation Camp and Residential Subdivisions
- Land Development
- Hard Stands and Laydown Areas
- Erosion and Sediment Control

## OUR COMMITMENT

We are committed to working collaboratively with our clients and partners to generate value. Through our dedicated people, we achieve the best possible outcomes for our clients, with integrity and honesty.

Our commitment to our clients is an important value to us and one we will never compromise.

# RECENT REPRESENTATIVE PROJECTS

SURAT BASIN

## **SANTOS GLNG ELECTRICITY DISTRIBUTION NETWORK**

### **Roma and Fairview**

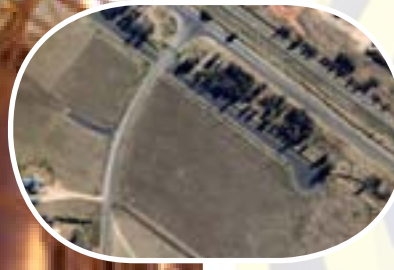

Contour provided Environmental and Engineering services to Tenix on the Santos GLNG Electricity Distribution Network installation. Our involvement with Tenix commenced in 2012. We provided the following services on numerous projects: Erosion and Sediment Control design and documentation, Site Inspections, Site Auditing, Environmental Training, on-site Environmental resourcing, Environmental planning and documentation, and Soil Testing and analysis.

## **WANDOAN WINDMILL ACCOMMODATION VILLAGE**

### **Wandoan**

Contour completed detailed design and documentation for MCU and Operational Works applications for a 715 bed Accommodation Village in Wandoan. Contour's services included the detailed design and documentation of civil engineering elements, detailed design and documentation of external sewer and water reticulation, detailed design on the intersection requirements with the Leichardt Highway, and the development of all Engineering reporting requirements for both applications. The reporting requirements associated with this project included: Flooding, Stormwater, Traffic and Site Access, Earthworks, Erosion and Sediment Control, Sewerage, Water Supply, Construction Phase Environmental Management and Utilities.

## **HOTEL/MOTEL DEVELOPMENT**

### **Chinchilla**

Contour provided a Material Change of Use application for a Hotel/Motel development (4,500 m2 GFA) in Chinchilla. We provided a detailed Engineering Report for this project that addressed Flooding and Drainage, Water Supply, Sewerage, Noise, Roads and Traffic, Earthworks and Erosion and Sediment Control issues relevant to the site. We also provided a separate Stormwater Management Report, Noise Impact Assessment and Traffic Impact Assessment.

## **120 KILOMETRE LOOP PIPELINE**

### **Comet Ridge to Wallumbilla**

Contour provided a large Erosion and Sediment Control Programme for a 120 kilometre loop pipeline for Murphy Pipe and Civil. In addition to a comprehensive review of the material developed in-house by Murphy Pipe and Civil, Contour also undertook a site inspection, and utilised our extensive Erosion and Sediment Control and Environmental knowledge of this area to finalise a detailed site specific plan for this project. Contour's CPESCs certified the Programme and will continue to work closely with Murphy Pipe and Civil on this project.

## **RACEVIEW ESTATE - 55 LOT SUB-DIVISION**

### **Racecourse Road, Miles**

Contour provided all engineering reporting and design services associated with the Reconfiguration of Lot, and Operational Works components of this project at Racecourse Road, Miles. The Internal Operational Works detailed design included Earthworks, Roadworks, Drainage, Sewerage and Water. Contour also provided detailed design services for the External Intersection, which included Roadworks and Stormwater. In addition to the reporting and design services, Contour also provided Civil Construction Phase services, which included contract administration and consultant supervision.

## **Headache Hill - Hard Rock Quarry**

### **Duck Creek Road, Pony Hills**

Contour recently assisted Ostwald Construction Materials (OCM) with the Local and State Government requirements for the implementation of a Hard Rock Quarry at Pony Hills. We developed the following reporting and design documentation: Site Based Management Plan, Traffic Impact Assessment, Erosion and Sediment Control Plan, Vegetation Management Plan, Rehabilitation Plan, Noise Impact Assessment, Traffic Management Plans, and Detailed Design and Documentation of a 7 kilometre Access Road. Our services also included the provision of assistance in the development and lodgement of the MCU and ERA applications. Contour also undertook a Resource Assessment of the proposed Quarry.
